SDS 290
HW 1: CITI Training

The Collaborative Institutional Training Initiative (CITI) seeks to provide training in responsible conduct in research (RCR). They address issues of ethics in conducting responsible research with human and animal subjects using web-based training. For this week's homework you will complete the online course and turn in the certificate of completion on Moodle once you finish the curriculum. **If you already have the course completed from another class, just submit your certificate on Moodle**.

Below are instructions for completing the CITI course:

1. Go to the Smith IRB website here and scroll down to "Required Online Ethics Training (CITI)."
2. Follow the instructions to complete your CITI training
3. When you have completed the 7 required modules earning at least a 75% on all quizzes, click "View Completion Report," save as a pdf, and upload the certificate of completion to Moodle for HW#1 by the due date.
